

Baci — Company Profile

Your business, live in 3 minutes.

Company Overview

Baci is an AI-native e-commerce platform that empowers entrepreneurs and small businesses to launch beautiful, fully-functional online stores in under 3 minutes. By leveraging cutting-edge generative AI, Baci transforms a simple business description into a complete e-commerce experience—complete with custom branding, product catalogs, and integrated payment solutions.

Founded	2025
Headquarters	Lagos, Nigeria
Industry	E-commerce / SaaS / AI
Target Market	Nigerian Small Businesses & Social Sellers
Platform	Mobile-First (iOS + Android) with Web Storefronts
Website	usebaci.com

The Problem We Solve

Small businesses in Nigeria face significant barriers to entering e-commerce:

- **Time-Consuming Setup** — Business owners spend 10-15 hours per week on manual e-commerce tasks
- **Complexity** — 80% of small businesses never launch online because existing tools are too complex or expensive
- **Technical Barriers** — Most entrepreneurs lack the technical skills to build and maintain a professional online presence
- **Fragmented Solutions** — Business owners must juggle multiple tools for websites, payments, inventory, and marketing

Our Solution

Baci eliminates these barriers with an AI-powered platform that handles everything:

 **3-Minute Store Creation**

Through a simple 3-question onboarding process, merchants go from zero to a live, professional storefront in under 3 minutes.

 AI-Powered Branding

- **Logo Generation** — AI creates professional logos tailored to your business type
- **Color Extraction** — Upload an existing logo and AI extracts your brand colors
- **Template Styling** — Pre-designed templates are instantly branded with your colors

 Smart Product Management

- **AI Product Descriptions** — Gemini AI generates compelling, conversion-optimized copy
- **Image Enhancement** — AI removes backgrounds and enhances product photos
- **Inventory Tracking** — Real-time stock management with low-stock alerts

 Integrated Payments

- **Paystack Integration** — Nigeria's leading payment gateway
- **Multiple Methods** — Cards, Bank Transfer, USSD, QR Codes
- **Buy Now, Pay Later** — CredPal and Credit Direct integrations

 Mobile-First Experience

- **Native Mobile App** — Full merchant dashboard on iOS and Android
- **Responsive Storefronts** — Beautiful customer experiences on any device
- **Offline Capabilities** — Continue working even without internet

Business Model

Revenue Streams

Stream	Model	Notes
Subscription Plans	Freemium	Free tier + Pro/Premium upgrades
Transaction Fees	Per-sale	Small percentage on each order
